

Are you a Registered Nurse or a Occupational/Recreational/Speech/Physical Therapist? Help Stroke Survivors Get Back in the Swing of Life!

Overview of Saving Strokes

Saving Strokes is the American Stroke Association's rehabilitation through golf program. The mission of this program is to offer stroke survivors an opportunity to participate in golf for pleasure and physical rehabilitation. The event is free, but advance registration is required.

No previous golf experience is needed. Stroke survivors in all stages of recovery are welcome to hit the greens to improve their strength, flexibility and balance. Survivors will work on the three basics of golf – Putting, Chipping, and Full Swing. Golf Pros will be present to teach the survivors the fundamentals and help them practice. Medical professionals are needed to assist the survivors and ensure a safe environment.

If you are interested in volunteering, please contact Nora Perry, nora.perry@heart.org.

Saving Strokes is locally sponsored by ConcertoHealth.
